Joe Reppert—Press Secretary

General Revenue Sharing in Kansas

Memo for Kansas Editors and News Directors From: Senator Bob Dole

President Nixon's General Revenue Sharing plan has passed the Senate and the House of Representatives, and the differences between the two versions have now been resolved by a joint Conference Committee. Final Congressional approval is expected within the next few days.

Since there has been considerable discussion of the benefits Kansas will receive under this new program, perhaps the attached statement, showing preliminary estimates for the distribution of Kansas' first-year \$52.8 million share, will be of interest. Please note that these figures, while based on the distribution formula worked out in conference, are not final, so in individual cases the sums actually received may vary somewhat from estimates at this time.

The Treasury Department is hoping to have the first General Revenue Sharing checks in the mail by the end of this month, and the final distribution figures should be available approximately one week earlier. But in the meantime this preliminary information may be helpful in assessing the impact General Revenue Sharing will have on your community and in Kansas.

House Proceedings of Today Are Published in Part; Additional Proceedings Will Be Continued in the Next Issue of the Record

No. 159

S 17061

KANSAS REVENUE SHARING ALLOTMENTS

Mr. DOLE. Mr. President, general revenue sharing, one of the most far reaching of many governmental reforms pro-posed by President Nixon, has passed the Senate and House, and now the agree-

ment of the conference committee is awaiting final congressional approval.

General revenue sharing promises to be one of the most significant single efforts ever undertaken to improve State and local government and reduce the redtape, delay, and inefficiency of a huge central-ized Federal bureaucracy. By turning \$33.5 billion of taxes collected by the Federal Government over the next 5 years back to the States and localities which have severely limited sources of revenues, general revenue sharing will enable local solutions to local problems to be designed and implemented with a speed and on a hand-tailored basis which has been impossible to date with cumbersome Federal programs.

General revenue sharing is a major breakthrough in the long and often frustrating struggle to make government in America more responsive, more responsible, and more efficient for our people. In the State of Kansas and in its cities, towns, and counties—just as in every other part of the country—support and interest have been broadly based and widespread.

State officials, mayors, county com-missioners, and, most importantly, the taxpayers have given general revenue sharing their enthusiastic endorsement. Their confidence and support have been well placed. Under the formula adopted in the conference report, a total of \$52.8 million will be provided to Kansas in the first year of general revenue sharing, with one-third going to the State government and two-thirds passing through to city, county, and other local government units. It is difficult to describe the impact these funds will have and the benefits they will bring to citizens of Kansas. Of course, improvements in State and local government and the relief of pressure for ever higher State and local taxes will be the most convincing evidence of revenue sharing's value, but at this time per-haps the best illustration would be simply to show where and in what amounts this first year installment of \$52.8 million

Therefore, I ask unanimous consent that the preliminary estimates of the distribution of general revenue sharing funds in Kansas, as determined by the conference report formula, be printed in the Proper the RECORD.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

Revenue sharing funds for Kansas [In dollars]

Total State grant to all locals	35, 230, 945
