WASHINGTON, D.C.--Senators Bob Dole and James Pearson announced today that the Environmental Protection Agency had authorized a \$64,200 increase of projects costs for construction of the new central park lift station and forced main in Topeka.

This announcement brings the total Federal support for the waste water treatment project to \$264,820, which is 75% of the total \$353,100 cost of the project. This is the maximum allowable percentage of federal participation.
