**WASHINGTON - Kansas Senator Bob Dole announced today a \$284,000 grant to construct north and south boundary roads for the K-State\Salina School of Technology, located at the Salina Airport Industrial Center. The funding was awarded by the Economic Development Administration, a division of the Department of Commerce.**

**"These access roads will be vital to the new technology school. In selecting this project, the Commerce Department has shown that this outstanding technology center is worthy of funding. Economic development grants are highly competitive. I congratulate Salina for their successful economic development record and I will continue to seek ways to support their efforts in this area," said Dole.**
