SENATOR BOB DOLE

WASHINGTON, D. C. 20510

Hon. Bob Dole
Senate Office Building
Washington, D. C. 20510

Dear Bob:

C. Y. Thomas' anti-primary bill was killed in the Senate Republican caucus - only five favorable votes - and didn't even reach a vote in the joint Senate and House committee.

The New York Times story reprinted in the Kansas City Times this morning on John Connally is evidently unfriendly. He speaks at the annual Lawrence Chamber of Commerce dinner January 29. I am going to Odd Williams' cocktail party ahead of the dinner.

Miller made the flat statement last week, according to Wayne Lee of the Hutchinson News - not for publication - that he was going to run for governor.

Best, as ever -
