Hon. Bob Dole
Senate Office Building
Washington, D. C. 20510

Dear Bob:

Just received a letter from an old retired Washington press chap now living in Alabama who still gets my releases and liked my Native Sons and Daughters talk so well that he sent it to his Congressman* and asked him to introduce it in the Record. I am not familiar enough with protocol to know whether the Congressman checks to see whether it has been introduced or not. It might be worthwhile for your staff to notify his staff that you have already been kind enough to put it in the Congressional Record.

You are now facing weaker opposition in November. Even so, I am sure you don't need this word of advice - not to be over-confident.

Best as ever -

Alf M. Landon
