The Honorable Robert Dole  
United States Senate  
Washington, D.C. 20510

Dear Bob:

As you probably know, your comments about "corporate welfare" and the communications bill have touched a few nerves out there.

I have been told by our friends that the big boys like AT&T or GE won't suffer, but the smaller and medium size firms will. These folks are our constituency.

Just thought I would let you know some of the feedback I have received. Otherwise, from my perspective your campaign appears on track. I know you are anxiously awaiting the Iowa caucuses and New Hampshire primary. Good luck to you and Elizabeth.

Keep taking it to Clinton. He is rather glib but people will be looking for new direction and honest leadership come November.

If I need to be doing anything, please don't hesitate to call.

Sincerely,

DQ/lm
