

4 April 1915

Dear Mom, Dad;

Well, I've plenty of time to write for a few days unless I do too much sightseeing. I finally got a break and wound up in Rome. It's really small here almost like home, but it won't last long.

I was very fortunate today I ran on to Dean Nesmith and Bill Hargiss who are in Rome conducting a sports program. Nesmith was our trainer at K.U. and Hargiss was my track coach. I've spent the entire day visiting with them. I've a pretty good chance of going to the next class if I do I'll be back in Rome before

too long. Maybe you've read about the Sports School in the K.C. paper. A class lasts 2 weeks and is composed of 60 men, half officers and 2 enlisted men. During the two week period you are taught practically every sport in the business. What they are trying to do is to develop instructors for the post war world. If I'm lucky enough to get in I'll let you know. I'd sure like to relax for 2 weeks with nothing to do but play basketball, football and run.

I plan on taking a tour tomorrow to see some of the sights that I used to study in history.

I had my first plane ride yesterday. I caught my ride from

Flarence to Rossman as really a thrill. I'm really convinced now that the Air Corp is a racket. I think I'd trade my bars for a (P.T.C) stripe in the Air Corp. They go home after 50 missions we stay until the war ends.

When I saw Coach Hangis and my old trainer Neenith I was convinced that I'm going back to school. Primarily to study but also to compete in athletics. I love to play basketball and football and compete in track meets. I hope I'm not too old when the war ends for I really want to do a lot of things. I weighed myself today, I tip the scales at 193 pounds which is more than I've ever weighed before. I guess these c rations must agree with me.

I have a lot of letters to answer but since this is a rest letter I don't

I think I'll do my best, I'll write
home as long as I'm here though.

Hope everyone is O.K. at home, let me
know the news and tell "Auge" hello
for me.

Goodnight for now.

Lane
