

New Guinea
March-14

Dear Folk's:
& Sis:

Received your letter today dated
the 2nd March, only 12 days not bad
time, also your St. Patrick's day card,
I had forgotten ever when it was, thanks
for remembering me, mom, also your letter
stated that Larry was in the hospital. I
do hope he is getting along O.K. and that
he doesn't miss out on his school,
and also his navy training that he
has already been chosen for, he is
going to go places in the Navy, as
he is intelligent enough to go to some
specialized training program, and get
a commission in the Navy.

In the card you sent Bob's letter, he said he had a lump in his throat, and after reading it I had one also, it made me stop and think of the times we used to have, but now that is all a memory and we are now living and praying for the future, and I think we have all earned everything and the good times to come.

I was glad to hear that you decided to buy dishes and the glasses with the money I sent to Mrs. Holzer I couldn't think of anyone else to send it too, and I did want to get you something, and I just couldn't think of anything else to do, so I am waiting to fulfill your invitation

for that dinner, when all of us
get back home again which shouldn't
be too long, so don't worry about
me as I am O.K. and I hope everyone
at home is well and happy also,

I am getting rather short on
words, so I guess I will close this
for now and drop Bob a few lines,

I will send you some pictures of
our beautiful women we have over
here, so you will know and be able
to see why I am as yet not married.

The next time you write
Bob send him one of
these pictures, as they
are the only ones I have.

L.
