

OCTOBER 28, 1968

FOR RELEASE OCTOBER 29 A.M.'s

Speaking at a Wyandotte County Republican Rally last night, ~~Bob~~ Congressman Bob Dole, Republican candidate for the U. S. Senate, said that his opponent was ~~trying to buy the~~ <sup>trying to confuse</sup> ~~election~~ with massive expenditures <sup>200,000,000</sup> for radio and television in which he ~~distorts~~ <sup>as distorted</sup> the facts <sup>where</sup>

"Specifically," Dole said, "my opponent ~~says I am~~ <sup>opposed</sup> to air pollution control <sup>and</sup> the facts are that I voted in favor of authorizing 96.2 percent of the money for air pollution control. <sup>48 ec -</sup> ~~I have resisted two minor air pollution control measures because of what I believe to be the possibility of excessive federal interference and control.~~ There have been two major air pollution control measures in Congress, ~~one referred to as~~ the Clean Air Act of 1966, which authorized \$186 million for 3 years for air pollution control, <sup>and</sup> I voted for ~~this measure.~~ <sup>or, the Clean Air Act of 1967</sup> Again in 1967 Congress passed the most significant measure to meet the challenges and overcome the dangers of air pollution. This was landmark legislation authorizing \$428 million for air pollution control and I voted for ~~this~~ <sup>it</sup> ~~measure~~."

"My opponent has every right to criticize my record, but he also has a <sup>parallel</sup> obligation to recite it as it is, not as he would like people to believe it is."

Dole also charged his opponent with gross distortion with reference to his voting record pertaining to Social Security measures. "My opponent knows that this year, for example, I voted for the ~~greatest~~ <sup>largest</sup> increase in Social Security benefits ever passed by the Congress.

"The benefit increase averaged about 13 percent."

Dole told the group that he does not believe the Kansas voters will be swayed by tactics being used by his opponent. <sup>well</sup> My opponent <sup>is</sup> spending 10 times as much as ~~I am~~ on radio and television, <sup>but</sup> we have 10 times as many people workign on our behalf, and in politics people make the dif=ference.
