FOR RELEASE AFTER NOON SATURDAY, AUGUST 22

OGDEN, UTAH Aug. 22 -- U.S. Senator Bob Dole (R-Kans.) today praised the Nixon Administration's accomplishments and warned against Democratic "obstructions and alarms".

Speaking in support of Senatorial hopeful, Larry Burton, the Kansas Senator said, "Two years ago America voted for a change, and now we have a Republican President. But the change is not yet complete, and the President cannot solve the nation's problems until it is -- until he has the support of the Congress - a Republican Congress. "

"Important questions affecting war and peace have been decided in the U.S. Senate this year, and last, by a single, or mere handful, of votes. This situation must be changed in November."

Dole attacked the Democrats saying, ~~"The President"~~
"A Democrat leader went on national television and said, 'Inflation, unemployment and war describe the present state of the economy and they add up to recession.'"

"I do not question the arithmetic of my colleagues in the Senate, but inflation, unemployment and war add up to the legacy of two Democrat Administrations and a Democrat Congress."

"But in spite of the Democrats' obstructions and alarms, the Nixon Administration is sticking to its course -- and winning the battle. It is successfully engineering the transition of our economy from a wartime-inflationary base to one relying on peace and stability."

Concerning the war, Dole said, "No problem has demanded more of President Nixon's time, his wisdom and his courage than our involvement in Southeast Asia."

"But, rather than recognize that the President has a working plan for peace in Southeast Asia, neo-isolationists in the United States Senate will soon call up a so-called "Amendment to End the War".

"Many Senators believe the proposal's correct designation should be the AMENDMENT TO LOSE THE PEACE. It is unwise, inappropriate, and impractical."

"If this amendment were to pass, newly-appointed Paris Peace Negotiator David Bruce might as well stay home because any hope for a negotiated peace would be irrevocably dashed.

"End the War" means surrender, isolation and eventual acceptance of a secondary and subordinate role for our country."

On the other hand, "Win the Peace" is a positive approach not only to Vietnam, but also to America's place in the world."

"There is nothing we can do about our Democrat-created problems -- except solve them. But we can do something about the Democrat problem-makers and solution-blockers."

"What we can and must do is elect Republicans who will join Richard Nixon in solving our national problems -- meeting our national challenges -- and leading our country into its third century of greatness."
