STATEMENT FROM SENATOR DOLE

WASHINGTON, D.C.

"The Jack Anderson statements relating to dealings between Mr. Manuel Fierro and members of the Kansas Congressional delegation are ridiculous. At most they indicate a feeble attempt by Jack Anderson and Mr. Fierro to discredit the Republican Party.

In any event, my staff and the staffs of other Kansas members of Congress have made every effort to deal fairly with Mr. Fierro, and he knows it.

The General Accounting Office's report on Mr. Fierro's programs was requested through regular channels and will, of course, be made public when received."
