WASHINGTON, D.C., JULY 23, 1971 -- U.S. Senator Bob Dole  
today praised the announcement by President Nixon requesting  
\$1 billion for the Emergency Employment Act.

The Presidential appropriation request includes  
\$6.8 million for Kansas. Dole said, "I hope that this  
request meets with swift approval and that the areas hardest  
hit by unemployment in Kansas can realize quick relief. This  
is another in a series of progressive and responsible actions  
by the President to bring about an improved economy for all  
Americans."
