U.S. Sen. Bob Dole (R-Kans.) announced today that the Commodity Credit Corporation has reduced the sale price of butter for unrestricted use by two cents per pound. Dole said this will make more butter available to meet domestic market demands and will mean both a break for the consumer as well as for manufacturers who use butter.

The new price, the Kansas Senator reported, will remain effective until the end of the 90-day freeze period, Nov. 14.

Dole said the reduction announced today is in addition to a two cent price reduction announced Sept. 21, representing a total reduction in the sale price of butter of four cents a pound since Sept. 21.
