DOLE ANNOUNCES WATER AND SEWER FUNDS

WASHINGTON, D.C.--Senator Bob Dole announced today that \$446,000 will be made available through the Farmers Home Administration in grants for rural water and sewage disposal projects in Kansas.

"I have been contacted by numerous individuals all over the State of Kansas concerning the need for additional rural water district development," The Senator said, "and I hope this level of grant funds will help resolve the need for water and sewage services in rural areas."

This action follows previous allotments of \$7,530,000 in 5% loans for rural water and waste disposal projects, \$620,000 for 5% loans for community facility projects, \$3,010,000 in loans guaranteed for business and industrial projects and \$150,000 in grants to industry development projects.
