MOVING THE OLYMPICS: A MODEST PROPOSAL

"Senator Baker has come up with an interesting approach to the problem of the Olympics, in suggesting that they be moved to Puerto Rico. Perhaps he should have given the matter more thought. That way, we could put the Olympics into a number of early primary states.

"Speaking for myself, I'd like to see the track and field events scheduled in New Hampshire, swimming and other aquatic contests in Maine, equestrian events in Vermont and opening and closing ceremonies in Massachusetts. And, while we're at it, perhaps we could put basketball in Kansas, rowing in Minnesota and the decathlon in Arkansas.

"That way, Senator Baker's idea can be applied to its more or less logical extreme."
