KENNEDY SIGNS ON AS CO-SPONSOR OF BILL TO END GRAIN EMBARGO

WASHINGTON-- Senator Edward-M. Kennedy (D.-Massachusetts) today became the 21st co-sponsor of a bill to end the Russian grain embargo. The bill was introduced by Sen. Dole June 19th.

"I am pleased to have Senator Kennedy join our effort to end this ineffectual embargo. I think his support gives some indication of just how widespread is the dissatisfaction with the President's policy. The American farmer is the true victim of the embargo. Perhaps Senator Kennedy, having travelled around America as he has over the past few months, is more in touch with the people on this issue than is the Administration."
