## HUTCHINSON FIRM TO BUILD MAJOR TAIWAN GRAIN FACILITY

Washington, DC -- Biehler Sales, Inc., of Hutchinson, has been awarded a multi-million dollar contract to assist in the construction of a 60,000 ton grain facility in Taiwan, according to Senator Bob Dole.

"I'm pleased to announce that we've been successful in helping Biehler Sales win this contract," said Sen. Dole in making the announcement.

"Because approximately 75-percent of the equipment and supplies used to build the facility will come from our state, this contract represents real progress in showing Kansas companies are marketable throughout the world," he said.

"As I told representatives of the Taiwan government, Biehler Sales has an excellent reputation and broad experience in this field," said Sen. Dole.

He said the facility will cost approximately \$26 million to build, with Biehler Sales receiving an estimated \$8 million as a subcontractor.

Biehler Sales will assist the Taiwan Agricultural and Industrial Development Corp., an arm of the government of Taiwan, in constructing the grain storage and unloading facility at Taichung Harbor, according to Dole.
