"KERFUFFLE"

The White House today described Senator Dole's speech on Asia policy as "a lot of kerfuffle." Because you may not find that one in your dictionary, this may help you out:

Kerfuffle, *noun*. 1) a complimentary term describing advocacy of foreign policy based on American leadership, strength, and consistency - as opposed to the weak global leadership, vacillation, and inconsistency characterizing the foreign policy of the current American president.
