McGovern-Dole Postpone Beef Industry Oversight Hearings

WASHINGTON, D.C. -- Senator George McGovern and Senator Robert Dole announced today that the hearings they had scheduled for October 10, 12, and 14, to look into the economic problems in the beef industry have been postponed because of the extended debate on the energy bill.

"We are working on rescheduling the hearing," the two Senators said, "because we feel that it will provide valuable information and focus attention on what has become a major problem for a substantial segment of the agricultural sector of our economy."

They said, as of now, they are looking at dates following the adjournment of the current session of the Congress.
