WICHITA COMPANY WINS BID FOR LEAVENWORTH VA CONSTRUCTION PROJECT

WASHINGTON - Kansas Senator Bob Dole announced today that the Law Company, Inc., of Wichita, Kansas, has been awarded a major construction project at the Leavenworth Veterans Administration Medical Center. The \$18.529 million contract was awarded today by the Department of Veterans Administration, following a competitive bid process.

"This is another important step towards completing much needed improvements to the Leavenworth VA Medical Center. This new facility will enable the VA to better serve our men and women veterans," said Dole. "I'm pleased that a Kansas company has won this major construction project - providing jobs for many in our state."

Senator Dole has been a long time supporter in the modernization of the Leavenworth VA Medical Center. Dole initiated this project with a request for planning funds in 1988. Last year, Dole helped win Congressional approval of \$28.725 million for construction of the new domiciliary.

The project includes construction of a two story building with an emergency generator and chiller plant, and landscaping and exterior work. Estimated project completion date is in 1995.

"The new Leavenworth domiciliary has been a longtime priority of mine. When this much-needed facility is completed, it will provide vital health care services to thousands who have served America," added Dole.
