MCCONNELL AFB MILITARY CONSTRUCTION PROJECTS  
OKAYED BY SENATE

WASHINGTON - Kansas Senator Bob Dole announced today that the U.S. Senate has approved several military construction projects at McConnell Air Force Base in Wichita. The Senate included the Kansas projects in the Military Construction bill for the coming fiscal year. The measure now goes to a joint House\Senate conference committee before final passage by both Houses.

The Senate included \$1.9 million for improvements in the control tower at McConnell Air Force Base, \$890,000 for medical training and telecommunications improvements for the Air National Guard at McConnell and \$6.4 million for a new commissary at McConnell.

"I am pleased that my Senate colleagues support these Kansas-based military construction projects. It is important to continue to modernize the infrastructure of our Kansas bases. We must insure that our men and women in the military have the facilities they need to fulfill their missions in America's defense structure," said Dole.
