DOLE ON HUTCHISON INDICTMENT

NEW YORK, NY -- Senate Republican Leader Bob Dole, travelling today in New York, issued the following statement regarding the indictment of Senator Kay Bailey Hutchison (R-Texas):

"I am confident Kay will ultimately be cleared of these purely political charges. It's pretty obvious this is driven by a political effort to discredit a rising star in the Republican party whose vote-getting ability has Texas Democrats running scared.

"Kay is extremely popular and effective in the Senate, and we will make certain that this politically-motivated effort does nothing to change that."
