Emporia Company Wins Contract

WASHINGTON - Professional Printing of Kansas, Inc., based in Emporia, was awarded a \$1.3 million contract by the Government Printing Office (GPO). Under the two-year agreement, Professional Printing, Inc. will supply the Justice Department with 94 million fingerprint cards.

"No doubt about it, Professional Printing is a Kansas success story," said Senator Bob Dole. "In 1993, it was named the Kansas Small Business of the Year by the Small Business Administration. Now it has scored an impressive win over four other bidders across the nation."

"This contract is great news for Emporia and for all taxpayers. By contracting out to state bidders, the federal government can save tax dollars and stimulate local economies. In my view, strengthening small businesses like Professional Printing means strengthening our economy," Dole added.

The company won its first two-year contract to supply fingerprint cards to the Justice Department in 1993. The cards will be used for Department personnel and criminal identification.
