September 16, 1993

Senator Robert Dole (R KS)
Senate Minority Leader
Room 141, Hart Senate Building
Washington, D.C. 20510

Dear Senator Dole:

The Plumbing Manufacturers Institute (PMI) is pleased with your acceptance to meet our industry's Chief Executive Officers on Monday, September 20, 1993, in Rooms Monet I & II at the L'Enfant Plaza Hotel. We understand you will arrive at 7:00 P.M. to participate in a brief "photo op" with PMI's Board of Directors. Your speech to the industry's members is scheduled for 7:15 P.M. to be followed by a question and answer session after your remarks.

As you may know, PMI is the national trade association which represents the country's \$5 billion plumbing manufacturing industry. PMI has 46 corporate members, which employ over 32,000 people at their headquarters sites and manufacturing plants in 25 states. These companies make a wide variety of plumbing products, including showerheads, faucets, and toilets. Of particular interest to you is that one of PMI's long-time members, Vanguard Plastics, Inc., is headquartered in McPherson, Kansas with 105 employees.

Our members would benefit from your general insights into the activities of Congress during the remainder of the year on subjects ranging from the debate on NAFTA and Health Care Reform to Strike Breeder legislation.

It would also be helpful if you reinforced for our senior executives the critical importance of their continued involvement with Congress and the administration as advocates for the plumbing industry and their companies.

Enclosed is a list of PMI's members, many of whom will be at the meeting. Please have your staff call me or David Martin at (703)-351-5295 if there are questions on the arrangements or topics for your speaking engagement. On the day of the event, we can be reached at the hotel phone number of (202)-484-1000 with an extension to PMI's office in the Marquette Room.

Sincerely,

Cecile B. Kremer
Vice President, Government Affairs

Enclosure

The National Trade Association of Plumbing Products Manufacturers
