*Brief opening remarks and Q&A before Harvard/Radcliffe students interning in Washington.

*A good opener might be to mention that Mrs. Dole is member of Board of Overseers, so they should feel free to tell you any complaints they have about Harvard, and you'll pass them on.

*Also might want to mention that Dennis Shea is a graduate of both Harvard and Harvard Law School. Despite that fact, he turned out to be a conservative Republican.

Dear Senator Dole:

As the director of the Institute of Politics' Harvard/Radcliffe Summer-in-Washington Program (and as a resident of El Dorado), I am writing to you with the great hope that you will be able to address a group of our students in Washington this summer.

Where? How many?
your office
or Moran
could get room
approx.
40-50

The goal of the Institute's program is to encourage interest and participation in politics and public service among the more than 200 Harvard-Radcliffe undergraduates interning in Washington for the summer. Our speaker series is designed each year to expose students to a broad range of individual perspectives in public life. Speakers in previous summers have included Justice Antonin Scalia, Commerce Secretary Ron Brown, and journalist David Brinkley. I imagine that your schedule is overwhelming, but I and my fellow undergraduates would be most honored if you would participate.

The program runs from the second week of June through mid-August. The format of the talk, the exact date, time, and number of students you would address, is at your discretion. I will contact your office soon to discuss this in greater detail. Thank you for your consideration.

(On a personal note, I want to again express my appreciation for the flowers that you and Elizabeth sent to our family on the passing of my great-uncle, Frank Boyd of Moran, a year-and-a-half ago.)

Sincerely,

Matthew Strong
