Finding a cure for cancer is a very personal goal. I lost both my father, Leon Goldman, and my husband, Bert Feinstein, to cancer. I saw its ravages firsthand, and I experienced the frustrations, the difficulties, and the loneliness that people suffer when a loved-one has cancer. I determined that I would do all I could to reduce the number of people who go through this devastating experience.

I continue to hope that we will find a cure for cancer in my lifetime. It is helpful to know I have friends and colleagues like you who support my efforts.

Sincerely,
