Dear Bob:

Your vote to sustain my veto of the Education Appropriations Bill deserves the gratitude of all who share our concern over government spending.

The Congressional increase of \$453 million over my recommendation for education constituted that unacceptable pressure on prices. I am sure the people of your state share my admiration for the action you took. You voted for the best interest of the Nation and by so doing showed your urgent concern with the average family struggling to make its income meet rising prices.

With warm regards,

Sincerely,

The Honorable Robert Dole
