Dear Bob,

I read three columns +  
editorials on the plane back  
to Newark + was inspired by  
two points.

Everyone recognizes that  
you are the leader - even though  
we have the unprecedented situation  
of having four living former  
Republican Presidents. You don't  
have to say it. Let others say it  
for you. But you must insist  
that all major issues be  
cleared with you.

Second - in 1996 you will  
be six months younger than  
Reagan was in 1984. You  
will either be the nominee,  
if your health permits, or  
you will name the nominee.

I look forward to a dinner  
for you few weeks from now  
& you after the first of the year.  
Pat joins me in sending  
great wishes to Elizabeth & you  
for Christmas + the New Year.  
Sincerely,  
RN
