

THE WHITE HOUSE

WASHINGTON

July 6, 1983

Dear Bob:

As you know, I have signed an Executive Order extending the term of the Presidential Commission on Drunk Driving through December 31, 1983. I did this so that the excellent work now under way could be brought to completion. I would like to ask you to continue to serve as a member of this Commission.

Until you and your fellow Commissioners began your work, drunk driving was America's most neglected public health problem. In its interim report, the Commission developed an effective legislative program. We intend to pursue the Federal role in this area with vigor. With your help and a concerted national effort, those who travel America's roadways will enjoy safer and longer lives.

I look forward to receiving the Commission's final report when it is issued. Please accept my best wishes for every success with your work.

Sincerely,

Ron

The Honorable Robert J. Dole  
United States Senate
