

Dear Folks:

I suppose you, like every one else are huddled around the radio listening to war developments in the battle with Japan. All day yesterday boys in the house sat around their rooms waiting for news bulletins to come in. There are 3 or 4 boys who are considering enlisting this week in the Army or Corp. It might be a good thing for me to do, at least it would be better than spending your money at school?

Did the coat get there in time for Kenny to wear it Friday night. Say, mom, would you look around for my other shorts and socks I don't know what become of all of them. There's nothing in the way of news here except war news, so I guess I'd better get ready

for school it about 10 till 8. Write
whenever you have time.

Goodbye
Love
Bob
