

Sunday -

Dear folks:

Everyone seems to be studying tonight so while its quiet I'll try to write a line or two.

With Kenny so close to LLOYD and Vera he should get to see them quite often. If they know he's there they will probably go to his camp to visit him.

Nothing has happened around here as usual though out of the 375 boys left 75 of them have pink eye, 2 of them pneumonia and 2 with scarlet fever. As yet I haven't caught anything from anybody and if I watch myself I probably won't.

Received your telegram Friday morning also your letter and a letter from Gloria as I was kept pretty busy during the noon hour making my mail. Gloria told me about all the fun she, and Larry and Larry Roy had when they were home. She really misses Norma Jean I guess but she

Doesn't seem to mind working for Larry and the baby. She told me that Larry Roy resembled me somewhat but that he still had a chance.

I was supposed to meet 5 Kappa Sigma at the Astor Hotel this weekend but I didn't get away from here until late so by the time I got there they were already gone; perhaps I'll get to see them next weekend.

I'd better start studying now or I'll flunk out before I get my furlough. We have a Physics test tomorrow ~~and~~ so I should be able to keep busy until study hall is over.

Dad, that "farm" you want to buy sounds like a pretty good deal. Henry and I can farm it when the war is over.

Love  
Bob.
