

2-10-44

Dear mom and Dad:
I started to write a letter to you
2 days ago but I didn't get very far.
I have a few minutes now so I'll
dash off a few lines.

There hasn't been much happening
around although 45 more fellows
left yesterday. The cuts are original
now down to about 320 and I'm afraid
I'll be in the next round to leave.
I'm not going to plan very much on
a furlough as if ~~there~~ something
should happen that I wouldn't get
one I'd be out to disappointed.

I haven't heard from anyone so
everyone must be all O.K. at home.
We have physical conditioning the
next two hours so I'll probably
have a little fun the next 2 hours.
I've been taking swimming
lessons out at last I learning
how to swim, it's a lot of fun
I guess I'll have something accomplished
when I leave here anyway.

We have 2 tests tomorrow
so I'd better study some more.

Lucie started taking some more
Chemistry from seven until 9 in
the evening 3 times a week so I
should be able to make a pretty good
grade in Chemistry. I have the most
trouble in trigonometry but if I
make a good grade on the test tomorrow
I'll be O.K.

Write and tell me all the
news, also what game's heard
from Henry.

I have an appointment with
a dentist Saturday to have my teeth
cleaned and possibly have that one
pulled.

My watch is being repaired
here too so I may have to write
a check to pay for the teeth and
watch.

~~Bob~~
Love
Bob
