

UNITED STATES ARMY

June 24.

Dear Dad:

Saturday night and I'm in camp for a change, primarily because I have h.p. tomorrow.

We finish our basic training next week and then start on something else for six more weeks.

I haven't heard a thing about my O.C.S. application so I don't know what to think. I wrote Floyd a Special D, Air Mail letter talking him about it and asking him what he thought we'd better do. I should hear from him pretty soon. I haven't had my interview yet so if by chance he can get the government to write a letter immediately it probably do me some good.

I wrote to Lawrence Ochs asking him about M.A.C. - O.C.S. so if I don't get a chance at enlisting all try Medical Administration.

Our divisional truck meet isn't far away, July 4th is the day we are

supposed to have it. Lin is pretty good condition now so I should do fairly well in the quarter mile.

Had a letter from Ethel today and also one from Rev. Jenkins. Ethel told me about Shondpai Ann. She heard of bones decaying, it's caused from lack of certain foods.

Thank Norma Jean for the \$10. she sent me see try to find time to write her a letter tomorrow. Needled to say Lin spent most of it but payday is next Saturday so I guess it's surmise.

Last week I went to 50 Cal. machine gun school. Had a lot of fun firing it and my ears are still ringing from the noise it made. So far she's fired the Carbine, M-1 rifle, 50 Cal. machine gun, .45 pistol, and throws hand grenades. It's a lot of fun except for cleaning the guns after firing them.

Salony
Bob
