

Oakland Calif. Sunday-

Dear Folks:

Just returned from Dallas, had a lot of fun but everything is so expensive that money doesn't last very long. I wrote a check for \$10 in Dallas so I would have enough to get back. I don't imagine that you sent the money for as far as I know you haven't got my address. I should have written before but I've been so excited about making A.S.T.P. that I've spent most of my time worrying about it. I have definitely made the program unless some change should be made before I leave here. I'll be studying engineering

I guess. ~~of~~ ~~14~~ weeks of engineering if my grades are high enough I can transfer to medicine which is really what I want. I have no idea where I will be sent from here but I'm guessing Oklahoma, Ohio^{or}, New York. We may leave here any day ~~or~~ or we might stay here for 6 or 7 weeks. This place is heaven compared to Berkeley. We have passes every night, if we want them, good food, better barracks and lot better places for recreation.

Kenny is probably on his way back now, I hope he had a good time while he was there but 7 days isn't a very long time to spend at home after being gone for 18 weeks. I miss seeing Kenny everyday but if our luck holds out we might see together again before this is all over. I don't feel quite

right when I think about
myself going to school and Henry
still uncertain about his future
There's not much I can do
but I will write him as
often as I can when I get
his address. If Dad still
wants to buy us watches and
can't afford to buy them both
now have him buy one for
Henry and I'll wait for mine
The same goes for sending papers
and writing. He will probably
be sent to a different place and
until he gets situated we ~~could~~
can help him a lot by writing
and such -

I haven't heard from
Norma Jean or Maria since
I last wrote them. How is
little "butch" getting along?

Now would you send
me my college algebra and
Trigonometry books. They should
be down stairs in an room
somewhere. We have classes
over -

here every morning on Algebra,
Physics, Trigonometry and Chemistry
so I really need them if you can
find them.

Here's my address -

Post. Bob Dole - 17179287

U. S. Army

Co "B" 3887th S. V. (Star)

Camp Mapey, Japan

Tell everyone hello for me
if they haven't all gone to the
Army or Navy.

Dad can you tell me
how well Floyd Snew Andrew
Schaeffel the Kansas governor.
I may need a little pull to
get into O.C.S. and if Floyd knew
him pretty well he could probably
help me. I'm not worrying
about O.C.S. now but in case some-
thing happens to my school deal
it would help -

I'll write more tomorrow
Love
Bob
