

Lawrence, Kansas.

Nov-4th 1941

My Dear Speed Demon---of Wild Reckless--Days-- Some Times No Dv License.
I just received your letter ,note all you say there in,well I suppose you
know The State of Okla and its Highway Commission are always on and after
Law Violators.

They,like wise are after me,wanting to know just why The Law isnt vindicated
and upheld in My Court and violators prosecuted and made to ~~pay~~ off.

So I wrote every one the same thing the same day,yours was not any more
"HARD BOILED" than the others,we do not have many outstanding cases yet
unpaid pending,yet a few that I have accomodated and tried to help seem
to think I'm dead easy and for get me.

I had a woman in some few nights ago from Lousiana,was going 85 miles per
Hour when over taken by The Patrol,she wept to keep out of jail,she assured
me by all that was good and bad she would pay off,that her check was good,
if I would only accpet it,I did,its "HOT" yet and will be,well she just made
it hard on the next party who was unfortunate,so it goes,I try to help out
people and they double cross me and let me down,so you loose confidence in
people and treat every one like they were Crooks and Criminals alike,The
State Highway Commission and patrol told me that is just what I would fine
out I would have to do,that a Man sitting as a Judge couldent have any Heart
in or about the cases,I guess it is so.

Now in you case I'll say do the best you can as soon as you can so I can
clean up and get this out of my system with the Highway Commission and Its
patrolmen.

Yours Truly

Barney Woolverton
Perry,Okla.

I guess if I had kept you in
Jail as The patrolman wanted me
to do you two could paid this off
before now,at least you could
served it out---That would been hard
Luck also---
