

a few meals.

Say have yau found a wife yet? Evereth said he spent a 3 day pass in Paris a few weeks a ago and what women. Guess it's really a single mans paradise, so yaill want to try to get up that way if possible. He says he should be decorated with a "Rabbit Turd cluster and a Sage Brush leaf," for staying true to his wife. By the way if some satchel doesnt hook yau over there and yau ever get married in U.S.A. I want to be best man. Say there are plenty of babes here in Big Spring, so I promise

to fix ~~up~~ when
you come back. M.A. says she'll
do her best to get you married.
I've got connections here and
over a period of time I can
get you all lined up without
my wife getting suspicious.
I'll have to test 'em and find
the suitable one for you.

Larry just asked me what
I was doing and I told him
I was writing to "Uncle Bot."
He's playing with his tri-cycle.
We got him one for his birth-
day and it's just a hair to
big for him. His feet barely
reach the ^{pedals} ~~pedals~~. He'll ride it
outside and get all hawled
up someplace and will want
me to move the car or house
rather than the tri-cycle.
He's quite a guy. By the way

Bob, I believe M.A. mentioned sending you a family picture of us. We're planning to have some studio pictures made and if it would be convenient for you to have one would like to send you one. Course if it would be in the way will wait till you get back.

Well, must sign off for now. Hope this letter finds you in the best of health and seriously, we are looking forward to a visit here when you get back.

As Ever.
Pis, M.A. Larry
and David.
