Dearest, darling, sweetheart Bob —

What the hell are you hung on - you should have had at least three letters down here by now. Remember that arm, or untangle it from some neck or somewhere and use a few of those stamps you miser.

Went thru Enid. Five a town. Got here Monday night. This is a swell town, but shy on that well known male diversion - "winmen". Of course with my shift that doesn't mean much. I work from 3:30 PM till midnight. I am a time keeper and only get \$1.25 but am due for a raise in about two weeks and other

are accessible. The only trouble
is that it only lasts until
late in September, when I'll
have to get another job, preferably
here, or else high tail to Kans. again.
Who knows.

How is the — situation.
You seemed to have everything
well in "hand" when I was there.
How's the job now? I well I
suppose. Why don't you black-
mail Don into a double salary.

Putting on a little weight.

Had a letter from "the fin" the
other day. Only one from KZ
so far.

Say hell to everyone and
write damn soon and plenty.

Your ever adoring sweetheart,
who loves you much —
