Dear Bob:

We surely were sorry that we didn't get to Dunler's wedding but Musseman had to work and The Drip and Snamney are going to school, so I didn't feel like going by myself.

I'm really going to be busy this summer as I am now taking CPT course and they really have fine planes here for the primary course. They are 30 hp Interstates and are much better than the other light aircraft being used for this type work. A new government airport is to be built four miles west of here, a bombing training center for British pilots, 4000 of them. The port is to be four square miles with runways big enough to land the Queen Mary if she could fly. (Damn this typewriter-- or me)

I was sub to Petersen's the other day and told V.J. that I was going to take American Govt. by correspondence this summer. Now she's all hot for the idea of her taking it too. It will be hard to take but I guess we'll have to 'harrumpf!', study together on it.

I'm really operating now, been dating a really cutie, whom I used to date off and on a year or so ago. She is no s\*-- really good looking. I wish that you could come down here for a visit this summer for a few days at least. We could do some good rushing, as well as have some fun.

Love you

*apuler separate cover,*

One of the men at the mill found a Kappa Sig pin on the street quite some time ago and the other day I went down to look at it. Immediately I thought of you. The fellow said to get anything I could for it so I will sell it to you next fall extremely cheap. It is a beautiful pin alternating pearl and ruby " - a good looker ".

Don't forget to correspond with me now, tell me what you've been doing etc. ~~Enclosed~~ you will find some rush cards with one marked the way I would like you to do it . Put it's O.K. to change the dates on it. Let me know how things are there and keep me posted . If I can write to anyone let me know. After you have dated up the boys send me the stubs so I can file them.

Very truly yours,

Bill Bunt

P.S\* How are you and P. coming I hope not.

You might look up Eileen Miller at Hay S as she could help you with some rushing there. Don't forget Richard McKee in Hay S.
