

Dear Bob,

That air plane had quite a time finding Maryland to deliver your letter, and I think Dattie was sayy at the time that it did find the place. She was plowing in the back 40" when the plane came over, and that being the first one ever to approach this place, caused her mule to run. But not being the type to let go, she hangd on until the mule was ready to stop. She suffered only a few cuts and scratches as she has already gotten rather tough.

Last week end we went over to see Harry + Julia, I more than got the dollar that he owed me. I'm sure he'll figure out a way to get it back though. Don't know how you'll get yours. He's getting that free car and has already sold his other one for fear they would go down \$10.00 before the free one arrives.

I suppose that Big 98 steep loaded
with the most beautiful women in
B.C. all the time. Too bad we had
such small cars at first. But you
remember the one advantage the small
car has, no telephones are needed.

Of course I know you don't have
any trouble of that kind now.

I have ordered a 78 but don't
know whether or not it will be approved.

The check from Mr. Fowler came
a few days ago, but I didn't see
much of it. We have been buying
quite a bit of furniture and that
isn't given away these days. But
managing wealth as I did, we don't
mind expenses, we have lots of them.

I believe I told you in the other
letter that we already have our apt.
and are ready for school. We also
have a locker, which we plan to fill
with steaks, roast, chicken, ham etc. So
you had better come down and see it

with us. You could probably get by here
as cheap as you could at Schenkus. I'm
got to figure out some way to get along,
and pay my taxes for you & Farry.

How are the O.T.s these days
I'm not interested, of course, but Dottie
wants to know.

That sounds like quite a system
you are using on your shirts, shoes
and zippers. It pays to always be
prepared I suppose.

Well Bob, I hope the arm is
much better by now and with continued
O-T. I'm sure it will improve.

Let us hear from you again, for
your letter caused more excitement
than any thing we since we've
been here.

Dottie sends her love, I suppose
it's OK to send it by mail.

Bob, you should see a piece of furniture
we made. Really looks like a master piece
we made it for our fishes, but people
call it a brook case.

Love Dottie
