

605 East Peoria St.

Paola Kans June 23

My Dear Bob -

Mrs Finney phoned me a few days ago to invite me to a Kap Sig mothers luncheon - and told me you had been brought home - injured - but hastened to assure me - the doctors say you are going to be normal - and entirely well and my dear boy that made me so happy - my heart that had done two pomer-saults began functioning normally again - As I have no blood relative in the service - you - are my next of "kin" - and while I'm not grieving - I'm deeply concerned for your rapid recovery - and rejoicing you are back in the U.S.A. and in a hospital so close to home - where your

✓ Mother don't visit you often
and I hope it will not be
long before I can get over to
see you -

I received your letter soon
after Christmas and sent you
one in return which I hope
you received -

A girl living next door - a
Gamma Phi - came home from
Lawrence today - I'll see her and
bring you all the campus news
when I come to see you -

With an earnest prayer for
your speedy recovery and I
hope you will make your eyes
behave while the pretty nurses
are around - I am affectionately
your adopted mother -

Nellie B Griffith
