

Paola Kansas -

Sunday morning -

my Dear Bob -

So happy to receive your note saying you are going to Springfield and hope you will get wonderful results from the treatment - and I feel sure you will like it there - I have a girl friend who has nursed there for many months - Jean Stephenson from K.C. but she is home on vacation at present - and is not sure if she will be sent back there or to another Govt Hospital. I hope they will take you out for rides around Springfield, in the foothills of the Ozarks. it just beautiful - and such wonderful fishing -

I know you are going to miss  
the many kindnesses of the  
Finneys - Aint they grand folks.  
I sold my car and am  
anxiously waiting to get a new  
one - If I should be able to get  
one while you are there, my  
sister and I will drive down  
some week end to see you and  
your mother if she is there with  
you - My sister is so grief  
stricken ~~of~~ over the death of her  
husband - I feel every little  
trip is a diversion and helps.  
Dons Howard and Bill Bunt look  
just the same - How I would love to  
see a lot of those boys who work  
so nice to me - Are they going back  
to school - Now Bab do send me  
a line occasionally telling me  
your address and how you  
are progressing - Kindest regards to  
your mother and yourself -  
ever Nellie B. Griff
