

10-29-43-

Dear Deew:-

I imagine by now you should have heard from me & know where I am - In fact I that I'll hear today; as I wrote Sun. Eve; & also Monday:

A.J. & I washed today, & it rained, they say it never rains in Mexico but I'm sure it poured today the climate is beautiful here - a lot like it was in Colorado, four rain one minute & sun shine the next. everything is quite convenient here except a little crowded.

We brought Glouia & Baby home yesterday at noon. Glouie feels pretty good, the baby weighed 4 lbs,  $10\frac{3}{4}$  oz when we brought him home lost a little hair as cute as he can be but thin & still like a baby. I'm thin - but he's really drite in every way - I'm real pleased to see how pert he really was, yesterday he seemed to realize he'd come home & eat real well. We want Glouia to feel him every two hours so he'll fill out - & its really quite a chore & the worst of all Glouia never hears him - so he's going to be fussy

problem - when he's here + I'm sure I don't know  
what Gloria will do when N. J. comes home -  
I guess Gloria had quite a time in fact  
some of the neighbors have told me they were  
near calling me a time or two + if the Baby  
hadn't arrived when it did the Dr. was  
going to take it anyway to save Gloria as  
some kind of poison had set in + he, the  
Dr. was really glad when it did arrive + on  
top of every thing else the Baby was  
completely upside down, + usually a Baby  
never lives in this case, so I'm really glad  
everything is as well as ~~off~~ they are - even  
Mr. Doudle told me this evening he  
was really worried about Gloria a week  
ago last Wednesday - she couldn't even  
wear her ring + her ankles were straight  
up + down - I've heard of this + in most  
cases they live around twenty-four hours.  
I guess it's just as well I didn't know  
since everything turned out P. K. + I've been  
taking care of the Baby as Gloria hasn't  
been able to as yet - she tried to feed the  
Baby last nite + nearly fainted as I took care of

him, & if you think it doesn't make you nervous to bath him as tiny as he is you just don't know. He is really a care & I do worry about Gloria taking care of him not being able to hear but I guess they'll make out somehow. I do wish you could see the Baby. He looks around like he hasn't all of us & eats like a pig so I think he's doing alright tho. We're going to send some pictures of him as soon as they are developed, also weigh him as soon as we get some scales. Harry is surely thin - he's down to 172 lbs. & really look like he'd lost more than that. Bob weighs 191 - Henry 168 -

I also took a few pictures of the Boys & they should be ready to print but there's no one here to go after them, so I'll send them later. Gloria has received so many pretty gifts for Harry Jr. & of course intends to write & thank all of them. Tell Della her gift arrived today & Gloria was really tickled with it. We'll soon be sending them all some snaps. Where are you eating? I got my ration Books down here - N. J. got them

to day & ah's to get Larry's tomorrow -  
Gloria wants you to come & see the  
Baby. I wish I could bring them home  
until he is at least two mos. old. By that  
time he wouldn't be so hard to manage -  
Larry always swooped down over the house  
when he starts flying. He goes on two  
missions one hour each, usually spends  
all day helping Gloria - I don't know  
how he does it but he does some how -  
today he run all of his pants thru the  
mangel. This Mr. Doodle has sure  
been grand to the kid & also everyone  
else - of all the flower, Company dis-  
Mrs. Sidney gave the Baby ten dollars for  
a Bond. I've surely met a lot of people &  
I guess Larry was the one who was glad to  
see me as he was so worried about Gloria  
taking care of Larry Ray - he was sure tickled  
about the way you had the Bassinette  
fixed & over the way it was fixed up  
after we got it out of the crate everything  
came thru alright. He was nervous  
a cat the day we brought the baby home,

guess I was too ~~to~~ feel much better  
about him now. + if he does as well the  
next few days, he has the first two lay at  
home in sure hill & write:

I sent Bob a box today + will fix  
Henry one Sunday - I'm so tired tonight  
I doubt if I even write anymore tonight,  
well I must drop the boys a card +  
you write them to I'm <sup>sure</sup> you love time +  
you have no one to fix bottles for every two  
hours so you should get lot of sleep -

Well - write + let me know what  
you hear from the boys + how everything  
is there -

Love Bird -

Fanny says someone sent some of the kid  
a case of eggs from Minnesota - so we were  
wondering how about you sending them  
some - eggs are 6 sets here.
