Dear Folks:

I have a few spare moments so I will drop you a few more lines to tell you a few things I have seen, as you know I crossed the Pacific & and it is really big, we saw whales, sharks, and a little bit of everything, but we had a lot of fun, I am taking fish and am getting along just fine, it really is hot over here, I really have a big time trying to buy souvenirs from these natives as we use English money and I don't know if they will use it, but I am leaving fast, well I will close for now and write soon, all our love
Love
