Dear folks:

New Guinea
7-27-45

Not very much to write about as usual but I will try to drop you a few lines anyhow, my mail must be slowed up again somewhere as I haven't heard from anyone for a few days and also I haven't heard a thing about my wrist watch. I do hope you packed it pretty good, you see by the time they get here they are almost ready to fall apart, and sometimes they open them up along the line and rewrap them and if I don't get this watch, you will at least have a pretty good idea of what happened to it, but I hope it gets here, well I haven't said much, but at least you - I can say you heard from me well so long for now and write.
