"NEW GUINOA"

Dear Folk as

Here goes for another very short note to keep you at least informed that I am getting along ok and feeling just fine, hope this finds all of you the same, no mail again today for me but it should be coming through again soon I hope I can't figure out how they got it mixed up again, as I haven't moved around for the past month, so I know the trouble isn't on this end although it may be back in frisco at the apo headquarters, but it should be straightened out soon. I am again back in the office, working as a dispatcher it is my job to see that all the trucks here are sent to the proper place and at the right time, it is still combat area but the japs here are pretty well under control in fact we haven't had any trouble from them for quite some time, hope it stays that way, don't know how any news to speak of but will try to finish this so you can at least read it, I haven't done any typing as you know since I left school and I am really glad I took typing while I was in school I only wished that I would have taken some other course that were available to me but as you know I always had too many other important things to do, but I hope to go to college someday, but don't plan on it too much as I might change my mind before I get back maybe I will be too old to go to college when this is over but from what I hear around here the Germans will be about ready to quit before long, I am afraid of only one thing and that is that the people back home will the german defeat go to their heads here of late and forget that we are still fighting our toughest war over here in the pacific, at least I hope they will remember it this war over here is going to last for quite some time yet and don't let anybody fool you and tell you it will be over in a few months, I don't know too much but I know what I have seen and they say experience is still the best teacher, so long for now, write soon.

V. MAIL
