

Sept. 14, 44

Dear folks:

Received a letter from you today, and I will answer it right away, I haven't written as often as I promised you I would, but I do my best believe me, also I received a letter from Rev. Jenkins he was in Colorado at the time of his annual vacation, I am going to answer his letter as soon as I finish this one to you. As yet I haven't heard anything about my wrist watch but hope to soon, I see a package last week from Gladys, I believe I told you about it, it made the third package I had received from the time I left the states, don't know what happened to the rest but I imagine they went to Danie Jones, they must have or I know I would have them by now,

You keep asking me for some hint about where I am at the present, well I practically told you in one of my previous letters, do you remember when I was telling you about not getting paid, and then I said if I got paid, what type of money I would be paid in, but I can't figure

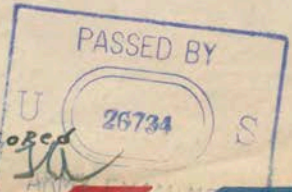

out about this salary business you
keep telling me, if there is a connection
I'm sure I don't know, of any that would
give you a lead, but it's about the same
In another letter I was telling you not to
look at the top of everything and surely you
don't want to look at the bottom, they
always told me to look, and act as though
I was in the middle, if this is too
confusing please let me know and I
may be able to break it down somewhat.
but I doubt it very much, not anything new
from here at least none that I know of
at the present, but I am feeling just
fine and am getting along ok, I will close for
now hoping to hear from you soon, will
try to write more after in the future.

Love
Lenny
