New Luceina  
March-29-45

Dear Mom & Dad:

Have gone for a few more short lines to let you know that I am still feeling fine and getting along O.K. Hoping this finds all of you the same,

Revised your letter with the picture of the four generations and really thought it was swell, I would like to have some film if you are able to pick any up, as I would like to send you some snapshots & also some to Bub, my camera is still working fine and quite a few of the boys have used it and have had very good luck with their pictures the last picture I sent you was a double exposure, and maybe you can have a better print made.

I mentioned in one of my recent letters that I was sending my watch home, but I still have it and will send it on to you the 1<sup>st</sup> of April so you can be on the lookout for it by may the 1<sup>st</sup> the mail is coming through pretty good now except for 2<sup>nd</sup> class mail and it is very slow, I have received both pair of horse - shoes and had a few hot games already - also the seeds - they are growing very fast - and I hope it doesn't get to hot and kill them, anybody that goes by the tent stop to see how they are coming along and if they grow anyone expects to be wearing one, so I do hope they come out OK. - I got a small box and planted them and now I am going to transplant them soon

I haven't heard a thing from Harold - but I am looking forward to seeing him. that is if I can find out just where he is - I went to see Dunderwood Welch, but he had already left the hospital and I didn't get a chance to see him. I think he was North.

When I finish this I will drop a line to Mr. Hogue as I know I really should have written to him long ago - so watch the paper - I like the clippings you have been sending me - as I don't get the paper very often - well I will close for now - hoping the war is over in Germany by the time this gets to you - and I think it will be - so long for now.

Love  
Henry
