

H. Co. Bose - 5
A.P.O. "718"
APRIL 21-45

Dear Robin:

Well I have been telling you for quite sometime about my being on orders and expecting to leave well I am not on my way as yet but I will send you my new address, as I hope to be there by the time this short note reaches you.

I don't know exactly when I am going - but have a good idea and I doubt if it is where I told you I wanted to go - but a place at least close to some type of civilization probably in the Philippines

-Page 2-

I haven't been working for
sometime but I have really
been busy the last 3 days getting
ready to pull out. It is quite a
thrill not knowing as to when
you will go and what you will
run into - but please don't worry.

Haven't received a package
since the Home - shoes - but would
like to get one or two before we
leave as on the boat ride isn't
too hot or meals "e-katcons" and
only two times a day of that and
some of that cheese would really go
good - also some salad - olives,
Hing Katsup, Mustard, and more olives
than things are really a treat
that of olives before but - some -
cont.

Page-3

of the boys get them and
I had almost forgotten what they
tasted or even looked like - so if
you have any points send me
some coffee - but don't run
yourself short as we get all
the G.F. coffee we want "chickery"
(coffee)
T. Shirts & white wool socks, would
always be appreciated - I have
been wearing these G.F. clod hoppers
(shoes) for 2 years and I was
wondering how it would feel to
wear a pair of real shoes - if
Bob or I have an old pair
around I would get a hint out
of wearing them around the tent and
area - one more thing I enjoy that
shining lotion - you sent - and I air out
could you get me some "old spew"

Page - 4

Did you ever get the request
I sent asking for the subscription
to the those magazines I was
mentioning as you never said.

My flowers are growing
small & I hate to leave them
behind but the boys will
take good care of them I know.

I got my first Russell Allen
for about 9 months except the one
you sent to me in package &
I suppose my change of address will
mix up everything for me -
again but they say it won't
use #PO 718 - it will go straight
from Arisco to Base 5 - so let's
hope they are right for a change.

Page 5

Haven't heard from Bob for
sometime so please let me know
all you hear from him & I do
hope he is getting a break.

Haven't heard from Sid & Lucy
for quite sometime but it's all
my fault I know as I owe them a
letter - will try to drop them a
line before I move,

Please send me Dean Perry's
address and anyone else that
you know of around here -

Well I will close this
letter & get some sleep -

Don't forget to
use my new address
