

June-29-45

Dear Folk's
& All:

Hope you have received my last letter by now, I am still in 9.M. but still hoping to get out somehow if at all possible. I can't really get over this place it is real civilization, even though what is left of it is not much you can tell it must have really been a swell place at one time, I still can't get over the people wearing real civilian clothes, after being in N. Guinea for so long without seeing anything I almost forgot what it was like. There are a few vegetables here but not very plentiful, hope there will be more as it goes along.

Page-2

I still have some flower seeds, and I intend to plant them just as soon as we can get settled in one spot,

There is a new deal out now where you can apply for Temporary Duty "T.D." for 45 days at home providing you have 18 months overseas; then when the 45 days are up you must return back over here. I will have 18 mos. by August 29, 45 and I doubt very much whether I will take T.D. or not as I know I do not want to come back over here for another year or two - never though I would give my right arm to come home for one day. I hate to think of coming back over here again.

I do hope that everyone has had a chance to see Bob, and that he is getting along o.k. by now, please give him my best wishes and also that I am praying that he can get home soon.

Please let me know where Larry & Gloria move to so I can drop them a line or two now and then.

Well I can't think of any more to write about at the present so I will close for now hoping to hear from all of you soon - long for now.
