

UNITED STATES ARMY

July 22-45

Phillippines:

Dear Bob:

I do hope that you will forgive me for not writing as I promised, but I know you understand all of the difficulties one runs into when you are moving around all of the time, I have finally settled down at least long enough to do what I have been wanting to do for sometime and that is to drop you a few lines so here goes for the news from this side of the world.

As for as news there is very little and what I do know Censorship will not permit me to write, and you understand that also, I know, as you know I am in the C.M. and I think you know they call the C.M. boys the base Commandoes, and I really can't say I like it.

UNITED STATES ARMY

-Page 2-

too well, and I don't blame the boys in the inf. as I know what they go through, so I can understand their feelings against us, but as I look at it, it isn't my fault, and I would take the inf. if I could, so I. too could call myself a soldier, this probably sounds foolish to you, and if you were here you would probably beat some common sense into me, but I can't help feeling that I am not doing my part. This isn't an old patriotic song that makes me feel this way, I guess it must be my Conscience.

I guess that about sums up the way I feel so I will get along with this letter. It really makes it difficult for me to write, knowing that you are where you are and

UNITED STATES ARMY

Page 3:

Just how you are feeling and getting along - and also I know it must really be tough on the fold's. If only I could get home I know I could get you back on your feet in a jiffy; but later not hope for the impossible to happen and ~~and~~ face the facts as they are.

I worry about you day and night not knowing how you are and I am helpless, so it is up to you Bob to get back on your feet, so you can get back home to the sweetest parents in the world, and the best home anyone could ask for.

As for as you and the Army are concerned, I doubt if they will let you stay in, and for god's sake don't stay if they will let you out. I know as well as you that you have done more than

UNITED STATES ARMY

Page 4.

You fight, and you can  
do more good at home than  
anywhere in the world, so  
take your little brother's  
advice just for once and  
take that little sheet of  
paper and are all waiting  
to see.

Will Bob I do hope  
that you are feeling O.K. when  
this reaches you and you are  
well enough to go for home  
for a few days, as I know  
it would do you more good  
to have mom fix you some  
good home cooked food &  
as I remember your favorite  
and mine was fried liver.  
so be sure to eat some  
for me.

Please don't worry about  
me as I am just fine, and as  
for the guys they are as for  
from here as you are.

UNITED STATES ARMY

Page 5-

You probably would like to know what I am doing. I am a motor syst. and I have a motor pool, and that is all there is to say, as you know from this just what I am doing every day.

Will Bob please keep you chin up for my sake, and before you know it I will also be home and we can be together again, so until then, I will leave everything to you. please give my regards to all and I promise I will drop you a line tomorrow if I don't do anything else. so long for now.
